Publication date:	12 September 2022
Version:	Version 2

Table of Contents

Local Rules for Use of Ionising Radiation

Emergency and Contingency Plan

Status and Scope

Section 1 Regulatory Aspects

Section 2 Permits

Section 3a Roles and Responsibilities

Section 3b Radiation Workers

Section 4 Schemes of Work and Radiation Risk Assessment

Section 5 Ordering radioisotopes, X-ray generators and instruments containing radioactive material

Section 6 Record keeping: Use, accumulation, and disposal

Section 7 Laboratory Procedures

Section 8 Monitoring of Radiation

Section 9 Designation and Marking of Laboratories

Forms

1 Workers Registration Form

2 Visiting Workers Registration Form

3 Training Record

4 Scheme of Work Application for Approval

Scheme of Work Application for Approval (Guidance)

5 Disposal Return Sheet

6 Order Form (Please note this is a multi part form available from Life Sciences)

APPENDICES (provided for information only and do not form part of the Local Rules)

Appendix 1 Introduction to Radiation

Appendix 2 Radiation Data

Appendix 3 Legal Dose Limits

Appendix 4 Dose Estimation

Appendix 5 Radiation Protection Advisers / Radioactive Waste Advisers

Glossary and Bibliography

Best Available Technique Assessment
